This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

UNIV. OF MICH.
APR 30 1908

ROSTER OF THE ORGANIZED MILITIA OF THE UNITED STATES

BY DIVISIONS, BRIGADES, REGIMENTS,
COMPANIES, AND OTHER ORGANIZATIONS
WITH THEIR STATIONS

FEBRUARY 1
1908

WASHINGTON
GOVERNMENT PRINTING OFFICE
1908

NOTE.

The roster of the organized militia of the United States issued by the War Department in February, 1907, although made up from the best information obtainable at that time, was found to be incorrect in many respects when compared with later and more accurate data received from the militia authorities. Moreover, the effort to secure conformity to the organization prescribed for the Regular and Volunteer Armies of the United States as required by section 3 of the militia law of January 21, 1903, necessitated the disbandment and muster out of some companies, the recruitment of others, and the entire reorganization of the militia of several States, as well as a material change in the organized strength of nearly every State and Territory from that last reported by the adjutants-general.

The War Department will be pleased to be advised by any person into whose hands this roster may come of any errors or omissions that may be observed.

WAR DEPARTMENT,
THE ADJUTANT-GENERAL'S OFFICE,

PORTO RICO.

The island of Porto Rico has no organized militia. Under an act of the legislative assembly of Porto Rico approved March 1, 1902, the organized force formerly known as the insular police, and now called "The Insular Police of Porto Rico," is authorized, and the expenses of its armament and equipment are paid from insular funds. The force is organized into 6 companies. The permanent stations are San Juan, Ponce, and Mayaguez.

This organization performs the duties that are usually performed by municipal police in the several cities of the United States. It is not a militia organization, nor does it constitute in any sense a substitute for the militia, either in the prescribed organization or in the duties imposed upon it.
